Careers are made from experiences. At IBM, those experiences can be diverse, unlimited and far-reaching. Joining IBM is about joining a culture of openness, collaboration and trust. You are joining a team of IBMers who are bringing change into the world — helping cure diseases, clean our oceans and make technology work for good. Our people are what make us unique. Every individual from around the world with a quest for knowledge has a voice to add to our story.

Eligibility:

- Course Completion Year: 2023 (Student must be a fresher/should not have any experience)
- Degree: BE/BTech - 60%/6.0 CGPA
- Calculation of qualifying marks = Sum of marks obtained divided by Sum total of maximum marks obtainable. All subjects will be considered including elective/optional subjects
- Branch: CS/ IT / Robotics / ISE / EE / ECE / EIE / AEIE / EEE/ ETE/ Maths /Computing
- No Active Backlog
- Designation: Associate System Engineer
- Compensation (B.E/ BTech): INR 4.50 Lakh per annum + *One time settling allowance of INR 25000

Selection Criteria (All rounds are elimination rounds)

1. Coding Test
2. English Language Assessment
3. Group Discussion
4. Interview(s)

Selection Process:

IBM conducts assessments that are engaging, interactive, and time-efficient for our candidates. We respect your time in showing your capabilities hence we want to give you a comfortable environment to truly demonstrate who you are and what you can bring to the job and to IBM. All rounds are elimination rounds.

1. Coding Test

Coding assessment - Hackerrank helps us identify quality developers with right skills. This technical hiring platform allows us to thoroughly assess the potential developers in their problem-solving skills through relevant code challenges.

2. English Language Assessment

This is an online assessment which measures English Language proficiency. In around 10 minutes candidates answer a series of MCQ's which evaluates their engagement towards English.

3. Group Discussion

The candidate would be assessed on interpersonal and communication skills.

4. Interview(s)

The candidate would be assessed on skills like technical representation, communication, growth mindset, innovation and adaptability.

About IBM

IBM is a 112-year-old company with a young heart. We strive to reinvent ourselves and the world. Our employees inspire to change the world through technology. At IBM India, we provide solutions and services to all major industries including financial services, healthcare, Government, automotive, telecommunications and education. As a trusted partner with wide-ranging service capabilities, we help our partners transform and succeed with meaningful circumstances. The diversity and breadth of the entire IBM portfolio of research, consulting, solutions, services, systems, and software, distinguishes IBM India from other companies in the industry.

IBM Consulting is the division of IBM that is focused on business process consulting and technology application. At Consulting, we provide end-to-end solution to our clients. We take pride at providing complex integration and business transformation solutions to our partners.

IBM Consulting in India, also known as Consulting - Global Delivery caters to clients worldwide. Our portfolio includes services on Digital Transformation (e.g., Strategy, Interactive Experience, Analytic and Big Data), Application Innovation Consulting and Enterprise Applicants (e.g., SAP, Oracle, Microsoft, and Workday).
