

ABOUT e-CONFERENCE

This Two Day e-Conference on "Climate Change, Environmental Health and Sustainable Development Goals in Post COVID-19 World" is being organized by University School of Environment Management on 4th-5th June 2020. The primary objective of this conference is to provide a platform to all students, research scholars, scientists, academicians, and professionals to share their ideas and views on the effect of COVID-19 on environment and also potential research opportunities in post COVID-19 scenario. Through this conference, one will be able to identify the impact of lockdown on environment during this pandemic and event shall further help in identifying the possible future mitigation measures to protect environment. This conference intends to increase our level of knowledge, information and general understanding about dealing with such pandemic situations and lessons we can learn from such pandemic for sustainable development.

- Seats are limited and shall be done on first come first serve basis.
- E-certificates will be awarded only to those participants, who will attend all sessions.
- Registration can be done through the link given below:
https://docs.google.com/forms/d/e/1FAIpQLScMZIMCVI8YPU EJdGJFXEv4_g3x9JmrRvjmvq5T7UdIiL0vag/viewform?usp=pp_url

e-POSTERS PRESENTATION

1. e-posters are invited to be presented in the conference.
2. Poster should be related to the theme of conference.
3. Poster should be in pdf, jpg or png format.
4. Send your e-posters online **before 3rd June 2020** to: chspc.usem@gmail.com
5. Certificate of presentation will be provided for presenting e-poster.
6. Top three best posters will be awarded as **"Best Poster Presentation Award"**

Two Day e-Conference

on

Climate Change, Environmental Health and Sustainable Development Goals in Post COVID-19 World

on the occasion of

World Environment Day, 2020

4th-5th June 2020

Organized by

University School of Environment Management
Guru Gobind Singh Indraprastha University
Sector 16 C, Dwarka, New Delhi-110078
Website: www.ipu.ac.in

ABOUT THE UNIVERSITY

Guru Gobind Singh Indraprastha University was established by Government of NCT Delhi on July 28, 1998. The university is included under Section 2 (f) and 12 (B) of the University Grants Commission and is a NAAC accredited 'A' Grade University. In 2018 and 2019, University was ranked 74th and 66th respectively in National Institutional Ranking Framework (NIRF), MHRD surveys. It first got certified as ISO 9001: 2000 and was subsequently upgraded to ISO 9001: 2008 by the STQC Directorate, Ministry of Communication and Information Technology, Government of India. The GGSIP University with 12 Schools of Studies in its Dwarka campus has been imparting professional education in emerging areas of studies and research such as Environment Management, Biotechnology, Basic Science, Engineering, Management, Medicine, Pharmacy, Nursing, Law and Education. Besides producing technically skilled and professionally well-equipped manpower for best career prospects, the university has excelled in its research activities in the frontier areas of these subjects in tandem with present day needs of the industry and society.

ABOUT THE SCHOOL

The University School of Environment Management (USEM) was established in the year 1998 to build a pool of trained environment professionals to contribute towards significant solutions to environmental problems and sustainability. This is the only school of Environment in the country that is imparting M.Sc. degree in three specialized areas equipping the students with enhanced employability skills in teaching, research and corporate sector. The school also offers Ph. D Program to promote research in front areas of environment. USEM has got Placement cell which actively facilitate student placement and the summer training. Bhumiruha USEM Alumni Association, Biophilia and SEED are the active students forums for the various students' activities.

PhD: USEM is actively engaged in research in emerging areas of Environment Management and Conservation using remote sensing and geographical information system, eco-technological, biotechnological and modeling tools, water and wastewater treatment, climate change and green house emissions, air pollution and environment health, natural resource management, biosystematics of plants & animals, and ethnoecology etc.

Three Master in Science Degree Courses are-

(a)M.Sc. Environment Management: The focus is on training the students as Environment Professionals in different sectors like Climate Change Mitigation, Energy Technologies, Environmental Microbiology, Pollution Abatement, Health Safety, EIA and Environment Management.

(b)M.Sc. Biodiversity & Conservation: The students are trained as Conservation Biologists, well equipped to work in areas of Exploration of Floral & Faunal Wealth, Wildlife Conservation, Urban Biodiversity Parks & Biodiversity Experts in Smart and Sustainable Cities for future generations.

(c) M.Sc. Natural Resource Management: The students are trained for Industry and Development Sector along with a balance to meet the Livelihood needs of the Community in a Sustainable manner.
