NOTICE

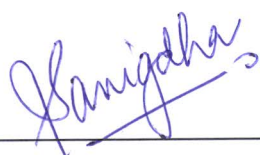

This is to inform all the final and pre-final year B.Tech students of Chemical and Biochemical Engineering that University School Chemical Technology is officially introducing ASMP (Alumni-Student Mentorship Programme). The programme has been formed to connect alumni with their alma mater. The alumni who have been working in the chosen field of interest of the student will mentor the student with their valuable experience. The team of ASMP will consist of student members who will serve as a bridge between the students and their mentors.

Interested students are requested to fill the form to apply for mentorship under ASMP. It must be noted that mentors will be allotted according to the field of interest of the student as well as availability of mentors. Please fill the form once only.
