**#BeyondPossible**

**Our Location**  
**Bangalore**

Tredence is a global analytics services company providing business solutions across industry verticals viz. Manufacturing, Supply Chain, Retail & CPG, Life sciences, Energy & Utilities, Engineering and construction. We are one of the fastest growing private companies in the country for three straight years according to the Inc. 5000 and we continue to set ourselves apart from our competitors by attracting the greatest talent in the data analytics and data science space. Our strong focus on growing the disruptive skill in-house through our unique academy driven, structured learning & development programs make us unique in bringing the right mix of technology and business analytics. We leverage the “Tredence Studio” to co-innovate with our customers & provide on the job experiential learning to train our new talent and our future leaders. Our sustainable white-box solutions are created using scalable data engineering platforms, ML works and many such home grown accelerators that are transitioned to our clients at the end of the engagement. Our ROI assurance framework and “Think Impact” core value helps us stay continuously curious about value creation for our customers. Our global delivery methodology & agile execution models help deliver cost effective solutions leveraging our ecosystem of partners & clients' existing technology and data assets in a secured manner. Our patented “Sancus” tool helps us deliver pre-built analytics solutions by accelerating data mining, BI and Big Data need of our customers.
