Associate- Carbon and Sustainability Accounting Team (CSAT)

CSAT · New Delhi, Dehli

C-Quest Capital LLC (CQC) is a social impact project developer whose purpose is to transform the lives of families in poor communities around the world. We do this by providing access to sustainable energy services and clean energy technologies that reduce greenhouse gas emissions, combat global climate change, and improve the health of those in need. CQC was founded in 2008 and is headquartered in Washington D.C., USA, with subsidiaries in India, Malaysia, Singapore and Cambodia and on-ground teams in a host of countries around the world.

CQC develops high impact carbon finance projects under four operational platforms: Cleaner Cooking, Efficient Lighting, Sustainable Energy and Nature based solutions. Currently we have active carbon project operations in over 15 countries across Sub-Saharan Africa, Central America, and South and Southeast Asia that have improved the lives of over 20 million people.

To support CQC's ongoing sustainability, greenhouse gas (GHG) accounting/verification, and climate change mitigation programs, CQC is looking for a Associate- Carbon and Sustainability Accounting Team to become a long-term asset to our growing portfolios across the globe. This individual will be required to complete GHG inventories, verification and validation, prepare climate action and sustainability plans, and other technical work, as well as manage and maintain contact with clients, and manage the schedule and work product performed consistent within CQC's compliance quality standards.

Expectations:

- Good communication, presentation, and interpersonal skills and the ability to clearly articulate when reporting data.
- Understanding of various GHG crediting programs such as CDM, VCS, SD VISTa, GS etc
- Quick learner with analytical abilities.

Core Tasks:

- Assisting senior team members in preparation of reports related to project cycle, baseline studies, etc.
- Helping with project related research work and background data collection.
- Others duties as assigned.

Qualifications & Experience:

- Master's degree in the field of Energy and Environment engineering and/or in management may be an advantage depending on the field of study and experience gained.
- One year work experience in related fields preferred.
- Knowledge of Microsoft Office application.

Location:

Jaipur

Supervision:

The appointees will report to Chief – CSAT and be overseen by Managers - CSAT, working closely with Senior Managers and other CSAT members, as needed.

Job Description Internship Position

C- Quest Capital LLC (CQC) is a social impact investor, project developer and climate finance specialist whose mission is to transform the lives of in the poorest communities in the developing countries by providing them access to clean and sustainable energy services and clean energy technologies and improving the health and wellbeing of women and children. CQC was founded in 2008 and is headquartered in Washington DC, USA with subsidiaries in South American, Southeast Asian, South Asian, and African regions. CQC is a leader in providing clean efficient cooking and lighting services to the rural poor worldwide and has growing businesses in renewable energy production and supply, and sustainable agricultural land use and forestry.

CQC employs over 80 full-time staff of investment, project management, and carbon professionals based around the world including Washington DC, India, Malaysia, Cambodia, Malawi, and Zambia. In addition, we regularly draw on a pool of individual consultants, collaborating NGO and private sector partners, and staff of our joint venture partners.

Background:

CQC is rapidly expanding its investment in cleaner cooking services, efficient lighting, and sustainable energy across its core geographies with an aim to improve the overall well-being of the communities and align with the sustainable development goals (SDGs) in its overall development approach. The current position is to assist the CQC Brightspark India entity to achieve its global goal of driving community based local change by supporting under the SD VISTA program.
