

**University IT Services Cell**

[Room No. D-412, Phone: 011-25302746, Email: [uits@ipu.ac.in](mailto:uits@ipu.ac.in)]

Ref: GGSIPU/UITs/.....421.....

Date: 25-04-23

**CIRCULAR**

The Wi-Fi networking have been setup & started functioning in the University campus. It has been observed that some staff & students of the university have installed their own private Wi-Fi Routers in the University Network Systems. During the troubleshooting the Wi-Fi networking, it has also been observed that private / misconfigured Wi-Fi devices are still not been removed from University network.

**The use of this type of un-authorised hardware are creating a lot of technical issues like looping, bandwidth chocking and also interrupting the internet facility in the entire or some part of the block/building leading to subversion of all the University Network.**

The UITs Cell has already initiated the process to identify these types of issues and it is recommended to strictly stop the use of private Wi-Fi Routers with immediate effect. If anyone found to use these type non configured devices, their internet access facility will be disabled.

To streamline the University network, all officers / Staff / Students are once again requested to remove their own Wi-Fi network equipment and to take a lead on these issues and prevail upon their peers to refrain from using University Internet Facility through un-authorised hardware/equipment. The found device may be confiscate without any notice.

  
Prof. Pravin Chandra  
(Incharge, UITs)

Copy for information & compliance of circular to:-

1. All Deans, Directors and Branch Heads, GGS Indraprastha University
2. AR to Vice Chancellor - For Kind Information to the Hon'ble Vice Chancellor
3. AR to Registrar - For Kind Information to worthy Registrar
4. UITs – To upload on University
5. Guard File
