MY LIBRARY ON FINGERTIPS

“ A Mobile Webapp ecosystem empowering Libraries to offer personalized user experience for effective patron engagement. ”

Voice enabled Universal Search

Discover content using Voice-command in the search engines recommended by your institution.

Access to subscribed eResources

Easy access to latest journals, databases & eBooks subscribed by your institution.

Access to institute configured links and files

Access OA, subject categorized links and files, (Tutorials, exam papers) uploaded by your institution.

Offline Reading

Save content from your favorite websites, blogs and news feeds or institute subscribed eResources and read them offline.

Tag and Organize

Find saved articles and research papers by tagging them and organizing them into collections.

Highlight and Listen (TTS)

The built-in article viewer allows clutter free text reading, highlighting, listening and more.

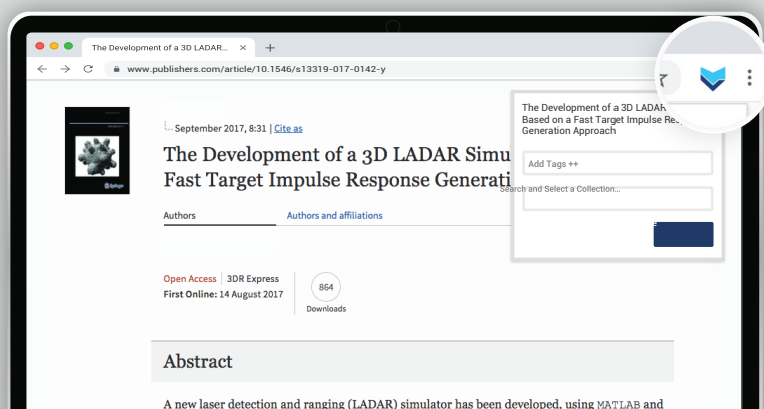

Stay up to Date

Receive important announcements from your institute and stay informed.

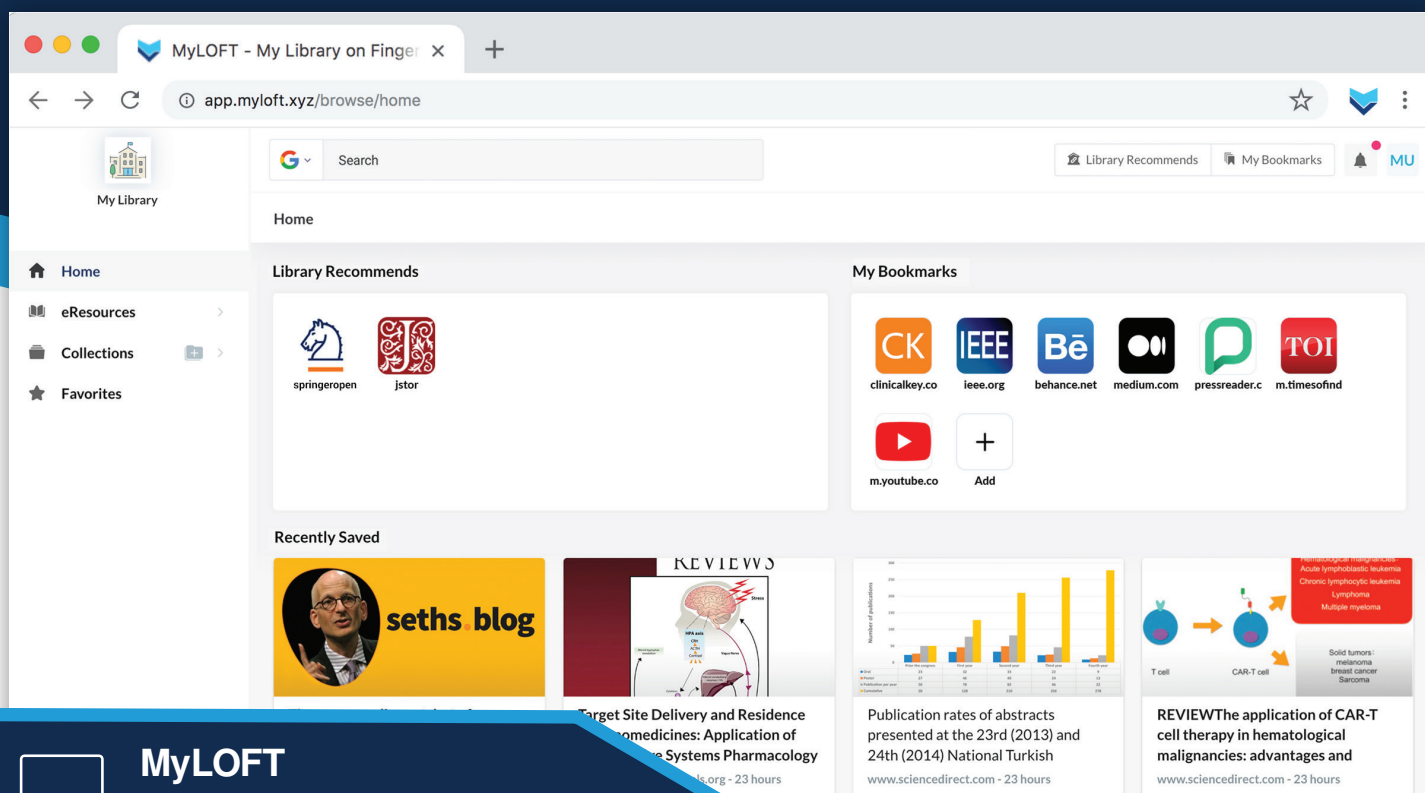

In-app Chat bot

For any Queries " Ask our Chat Bot".

CHROME / EDGE ADD-ONS EXTENSIONS

In-built browser extension identifies the library subscribed databases even while searching on different platforms. Users can discover and save articles with a single click from any website.

MyLOFT Web App

Seamlessly access, organize, share and sync eContent between PC and Mobile while multitasking using Web app.

ADMIN FEATURES

Manage Users and eResources: Get insights on top user categories, most saved articles, top publishers through **Admin Dashboard** and have flexibility and complete control to manage Users and eResources.

Custom Menu: Enables easy customization of content based on disciplines or subjects. Seamlessly integrate the institutional repository with the ability to upload a wide range of documents including lecture notes, videos, and question papers.

Announcements: Make announcements with eye-catching flash or banner view options to selected audiences and ensure widespread attention.

Reports module: Comprehensive reporting module providing User category and Publisher wise data usage, platform usage, article download and user continuity reports.
