Job Title: Product Research Associate

Company: Hound Technologies Pvt Ltd

Location: Delhi

About Hound Technologies: Hound Technologies is a dynamic player in the home appliances and consumer electronics distribution industry. Operating as a distributor, sourcing consultant, and online retailer, the group has rapidly expanded its product portfolio and established a global presence with offices in India, and China.

Job Description:

As a Product Research Associate at Hound Technologies, you will play a pivotal role in the growth and success of our consultancy division. Your responsibilities will encompass in-depth market analysis, strategic sourcing, and effective supplier management across a diverse range of product categories.

Key Responsibilities:

1. Market Analysis:

- Conduct thorough research on demand and supply dynamics, market trends, and consumer preferences in assigned product categories.
- Analyze the competitive landscape to identify opportunities and challenges.

2. Sourcing Strategy:

- Develop and execute a comprehensive sourcing strategy for establishing partnerships with manufacturers and suppliers.
- Consider factors such as product quality, production capacity, geographic location, and cost-effectiveness.

3. Product Portfolio Management:

- Gain expertise in the product portfolio, understanding specifications, features, and variations.
- Identify unique selling points for each product and assess their alignment with client requirements.

4. Price Analysis:

- Conduct pricing analysis to determine competitive yet profitable pricing.
- Consider production costs, market demand, and competitor pricing.

5. Supplier Evaluation:

- Evaluate potential suppliers based on quality, reliability, delivery times, and financial stability.
- Conduct supplier audits when necessary to ensure compliance with standards.

6. Negotiations:

- Engage in negotiations with suppliers to secure favorable terms, including pricing, payment conditions, and delivery schedules.
- Build and maintain strong supplier relationships for successful negotiations.

7. Supplier Profiling: Create comprehensive profiles for selected suppliers, outlining strengths, capabilities, and areas of expertise.

8. Quoting Process: Prepare detailed quotes for clients, ensuring accuracy and clarity in product specifications, pricing, and terms.

9. Price Waterfalls: Develop price waterfalls to outline cost breakdowns, including manufacturing costs, shipping expenses, and associated costs.

Qualifications:

- Master's degree in Business, SCM or engineering.
- Strong affinity towards products, technical.
- Strong analytical and negotiation skills.
- Excellent communication and interpersonal abilities.
- How to Apply: Interested candidates are invited to submit their resume and a cover letter to
