Subject: New Proposals to Open School / College of Nursing - Regarding.

Sir / Madam,

It has come to the notice of Indian Nursing Council that **there is a skewed distribution of the nursing educational institutions** in some districts in the state.

It is therefore requested that before issuing the Essentiality Certificate/Government Order/No Objection Certificate (NOC) assessment of existing nursing institution in the districts may be done

Nursing courses are skill oriented. Hospitals will be the laboratories for Nursing training. It is therefore **State Government while issuing NOC for 2013-2014, should ensure institute, has parent hospital of 100 beds.**

Further It is requested that the location of Institution should be taken into consideration along with the financial capacity of the trust, and land ownership by the trust to establish a nursing institution.

It is also observed that **NOC is issued in the name of Trust**, which will **not be acceptable** by Indian Nursing Council. As any Organization or Trust can open any number of institutions. **NOC should be issued in the name of Nursing Institution**, along with the trust name, address of the nursing Institution.
