Section A: Plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement (attach separate sheet if required).

1. Every University or academic institution has two important dimensions – knowledge creation and dissemination. GGS IP University, Delhi has now embarked on path of consolidation with focus on improving the quality of knowledge creations and knowledge dissemination to take the university to the next higher orbit.
2. The Meeting of the Advisory Committee of the IQAC chalked out the blue print of action for continuous improvement in all spheres related to ISO 9001:2000 certification from Standardization, Testing and Quality Certification (ATQC) Directorate, Department of Information Technology, Ministry of Communication and IT, Government of India.
3. It was decided that the Vice Chancellor, Prof. D.K. Bandyopadhyay would visit every University School of Study to chalk out the perspective plan for next five years and crystallize bench mark of quality assurance for teaching, learning and research for the year 2008-09
4. With the focus of the University on quality assurance for teaching and learning through faculty development programmes, it was decided to organize a series of training programmes and encourage faculty to go for FDPs organized by other Institutions.
5. It was decided to identify new avenues of collaboration with industry, R&D centers, institutions of higher learning in India and abroad, for teaching, research and technology transfer.
6. The University decided to undertake a new Faculty Appraisal and Development System (FADs) to encourage faculty to enhance quality of teaching learning and research by identifying their own goals in these aspects of professional conduct.

Section B: Details in respect of the following (attach separate sheet).

1. Activities reflecting the goals and objectives of the institution

OBJECTIVES: The objectives of this University are outlined as below:

- (i) To nourish, nurture and promote holistic higher education with focus on professional education; with a view to achieve symbiosis between intellectual pursuits and societal needs;
- (ii) To provide for instructions in emerging areas of higher education and to make provisions for research and advancement as well as dissemination of knowledge and skills;
- (iii) To promote self-financing colleges and institutions in the emerging areas of professional education and maintain quality through delegation of responsibility and ensuring accountability;
- (iv) To establish collaboration with industry, R&D centres, institutions of higher learning in India and abroad, for teaching, research, technology transfer and allied activities;
- (v) To organize and undertake extramural studies and extension services;
- (vi) To harness the potential of Information Technology for effective education and to meet the societal needs;
- (vii) To provide for instructions through distance learning and 'open approach' and for mobility of students from the non-formal stream to the formal stream and vice-versa;
- (viii) To inculcate moral & spiritual values, and social sensibilities amongst the students.

Activities reflecting the goals and objectives of the institution are as under:

1. In order to promote holistic higher education the focus was on introducing new academic programmes related to medical and education. Curriculum planning for starting M.Tech (Digital and Wireless Communication) was undertaken as well.

2. The draft of Faculty Appraisal and Development System was circulated to all the Schools of Studies to get the input from vital stake-holders of the system i.e. the faculty.
3. The new programmes namely, (i) D.M. (Cardiology), (2) M.Ch. (Cardio Vascular & Thoracic Surgery), (3) M.Ch. (Plastic Surgery) were launched in the affiliated institutions thereby reflecting confidence in the affiliated institutions.
4. As part of University's efforts to strengthen the collaboration with other institutions of higher learning in India and abroad, University School of Management Studies conducted a brainstorming workshop in collaboration with IIT, Roorkee on "Enhancing the Role of Social Sciences in Management Education". The workshop gave new insights and worked out a model of cooperative advantage derived from the two areas for academic excellence.
5. Formal system of "Teachers' Evaluation by Students" aided in a big way to improve their quality of teaching and research.
6. In order to strengthen the research new laboratories of green house for the purpose of raising transgenic crop plants has been erected at the University School of Biotechnology. It is well equipped with microclimate humidity controller, complete water circulation system with misting units, microclimate photoperiodic controller for regulating the conditions of light and dark and a complete heating system.
7. This year 'Anugoonj 2009' was organized as 'Decade Celebration' of the Annual Cultural Festival of the University. The event was held from Feb. 4-7, 2009 in the university campus. First of all, the first year students' data is collect from the Academic Branch of the University. As per data, the data base is formed in the Examination Division. Then, conduction process for End Term Semester Examination starts, the Examination Forms are distributed and received from the students as per the data provided by the Academic Branch for appearing the examinations. As per examination form received, the registration chart is prepared and as per registration chart, the admit card is prepared by the EDP section. Thereafter, the paper setting work starts. The several papers are set according to their scheme of examinations. The Secrecy Branch of Examination Division sends letter to Dean/Director/Principal of University Schools of Studies / Affiliated Institutes for list of paper setters, when the list of paper setters is

received, the choice of paper setter process starts. When the Registration Chart is prepared and Scheme of Examination is selected, the process of making of date sheets; examination centres and evaluation centres is started. It is also kept in mind that centres are notified in last moment and must be rotated so that someone may not try to influence the centres. After the completion of examination in the examination centre, the copy sends to the evaluation centres, the evaluation centre knows the status of copy and one important thing which is also involved in evaluation centre is "Coding" of answer sheet. At the evaluation centre, the P-IV / P-III of answer sheet are separated from the answer sheet and Award List which is prepared by the concerned teacher is sent to the respective Result Branch. The Result Branch sends the P-IV / P-III to EDP Section for preparation of result. When the result is prepared by the EDP section, it is sent to result section for verification, the result section acts as an auditor of result prepared. After verification the final result is put up to the Controller of Examinations for declaration. After declaration of result, the rechecking process / inspection of answer scripts starts within 15 days of result declared.
