APPEAL

"ANG DAAN-JEEWAN DAAN"

Shortfall in supply of organs for transplantation in India has always been a grave concern for patients with organ failure. Living organ donation cannot fulfill the demand of needy patient waiting for transplant. What we need is to promote Deceased Organ Donation Programme and Pledge to donate our organs in the unfortunate event of Brain-stem Death.

It is certainly a difficult moment when a beloved family member leaves us. However, despite living in sadness and grief, we can still extend love and blessing to those who are battling for their lives on the verge of death.

Through the decision of donation of kidney, liver, heart, lung, cornea, bone, heart valves and skin, can rekindle hope to save lives of eight patients and their families as well as improve the quality of life of many patients! The needy patients may now find a second chance of life through organ transplantation, lighting up hope for patients and their family members.

I appeal to come-forward and pledge to donate organs and make it as a family tradition; ultimately transforming pledges into actual donation after death. Please also make sure that your wish to donate organs after death is made known to your family members.

I also appeal to disseminate the information as much as possible and make this appeal a mass campaign.

Your Cooperation in this National Endeavour will be highly appreciated.

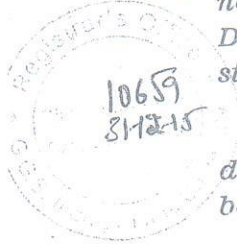

I am enclosing herewith a Pledge Form for Organ and Tissue Donation which may be filled up and forwarded to the office of the undersigned to be the part of National Organ Donor Registry and getting the individual Card. It is purelu voluntary.

Yours faithfully,

Dr. Saudan Singh

To,
The Vice Chancellor
