Subject: Advisories to Students Regarding Attendance

Date: 22/02/2018

Dear Students,

The University of Chemical Technology (USCT) has received reports of students visiting the attendance office or reaching the website to check their attendance status. However, these reports are not an accurate reflection of your attendance. It is important to note that the attendance status of students is not reflected on the website or in the attendance registers maintained by the respective faculty members. As such, the reports submitted are inaccurate.

We would like to inform you that the end-term examinations will be held in April-May 2018. It is crucial to maintain regular attendance throughout the semester, as this will have a significant impact on your eligibility to appear in the end-term examinations.

Please be reminded that late attendance and absence will have a direct impact on your academic progress. It is crucial to attend classes regularly and to reach the campus on time. If you find it difficult to maintain regular attendance, please reach out to the appropriate authorities for assistance.

We encourage you to check your attendance status regularly and to make necessary arrangements to improve your attendance. It is important to ensure that your attendance is recorded accurately to avoid any consequences.

Thank you for your cooperation and continued efforts towards academic success.

Dr. Tapan Sarkar
Dean, USCT
