Sub: Invitation - Schneider Electric's Yuva Yodha Hackathon

Dear Future Innovators,

The world's most sustainable company is on a mission. And we need you.

India stands at an inflection point. Our grids are evolving. Our buildings are becoming intelligent. Our farms are turning tech smart. Our factories are reimagining efficiency.

But the biggest breakthroughs aren't happening in boardrooms. They're happening in classrooms. In late-night brainstorming sessions. In your ideas.

We are proud to present Schneider Electric **Yuva Yodha Energy Tech Hackathon 2026**. To invite your partnership in finding innovative, real-world energy solutions.

Why you should participate?

This isn't a competition. It's a movement. Where your idea can advance the future of energy tech; shaping how future generations live, work, and play.

Winner: INR 20,00,000
First runner up: INR 15,00,000
Second runner up: INR 10,00,000

Top 10 teams:
Pre-placement
interviews

Mentorship
from industry
experts

Chance to get
your idea funded
by SE Venture

What can you solve?

We seek revolutionary ideas across four critical sectors:

Agriculture
Sustainable farming tech,
water optimization, crop efficiency

Buildings
Smart infrastructure, energy-efficient
systems, green automation

Grid Reliability
Renewable integration, grid resilience,
decentralized energy solutions

Smart Manufacturing
Industrial efficiency, waste reduction,
predictive maintenance

Register & submit your ideas

August 15th to October 4th
