INTRODUCTION

The Intellectual Property Rights Cell at Guru Gobind Singh Indraprastha University (GGSIPU), also known as IPU-IPR Cell embodies a commitment to fostering innovation, creativity, and knowledge creation within the university community. With a vision to lead in knowledge creation by stimulating innovations and creativity in emerging areas of higher professional education, the Cell plays a pivotal role in championing the protection and usage of intellectual property (IP). At its core, IPU-IPR Cell is dedicated to raising awareness among faculty, non-teaching staff, librarians, and students about the significance and benefits of intellectual property rights (IPR). Through a multifaceted approach, it sensitizes all stakeholders to the diverse aspects of IPR, actively promotes research endeavors by providing support for effective patenting and other forms of IP protection. In alignment with its objectives, IPU-IPR Cell operates as a guiding force, offering guidance, resources, and support to all members of the GGSIP University.

INTRODUCTION

The IPU-IPR Cell carries out various student-centric activities in collaboration with the USLLS-IPR (University School of Law and Legal Studies Intellectual Property Rights) Cell which stands as a cornerstone in fostering a culture of innovation, protection, and dissemination of intellectual property rights within the legal education landscape. The USLLS IPR Cell aims to educate, advocate, and engage with stakeholders on various aspects of intellectual property law, including patents, trademarks, copyrights, and trade secrets. Its primary objectives encompass nurturing a comprehensive understanding of IP laws among students, faculty, and the broader community, facilitating research and awareness in the field.

Chairperson and Members

The IPU-IPR Cell functions under the Research and Development Cell, GGSIPU. The activities of the IPU- IPR Cell are being coordinated by Prof. (Dr.) Lisa P. Lukose, USLLS, the Chairperson of IPU - IPR Cell; Prof. (Dr.) Neena Sinha, USMS & Prof. (Dr.) Amit Prakash (Members). Prof. (Dr.) Gurujut Singh, USLLS actively contributes to the day to day activities of the Cell.

I. Published Patent Applications

In the first cycle, the IPU-IPR Cell successfully filed and published the below-mentioned patent applications in various fields as submitted by numerous faculties and often scholars in collaboration with their supervisors. These applications have been received from diverse University Schools. The Cell aims to simplify the process of patent for the University employees and scholars/students thereby encouraging innovation and technological developments in the University. The Cell follows a systematic procedure wherein external Experts are invited to appreciate the work of the applicants.

The Cell has received dozens of applications in the second cycle which is under process and at various stages of filing process. Through accelerated publication and expediated examination The IPU Cell facilitates faster registration and acquisition of IPR.

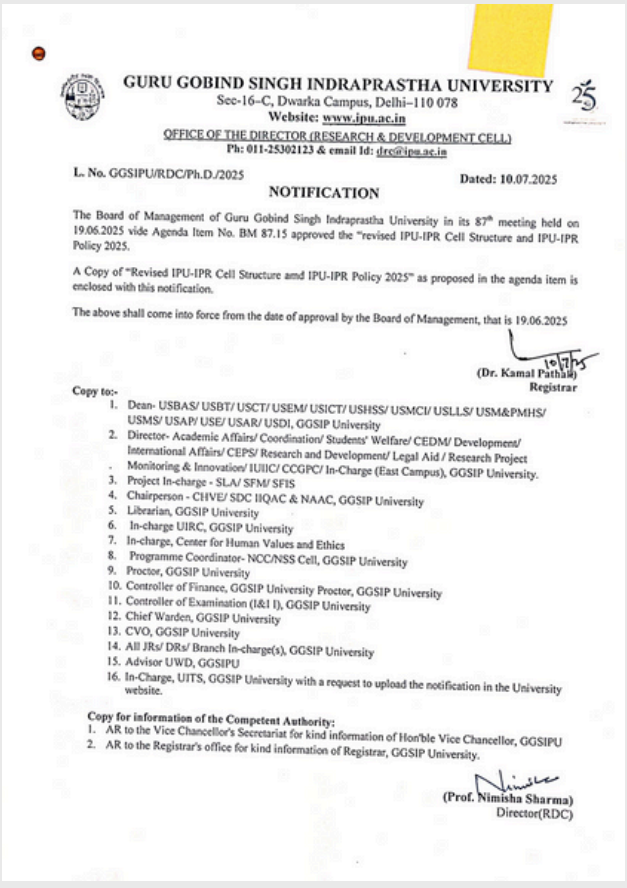

Sr. No.	Patent Publication No.	Date of filing of application	Publication date	Title of invention	Name of the inventor
1	202411097846	Nov 12, 2024	Jan 24, 2025	A Method For Calorimetric Detection Of Manganese (II) By Using PVP Capped Silver Nanoparticles	Prof. Shipra Mital Gupta, Prof. Surendra Kumar Sharma, Shailja Pandey

Activities in a Nutshell

One of the fundamental responsibilities of IPR Cell is to promote awareness and build capacity among stakeholders about the importance and nuances of intellectual property. This involves organizing a wide range of informative and interactive events such as seminars, workshops, webinars, symposiums, and training programs focused on various aspects of IPR, including but not limited to patents, copyrights, trademarks, geographical indications, industrial designs, and trade secrets. These programs are tailored to cater to diverse groups—students, faculty and research scholars—ensuring that all members of the academic community are well-informed about their rights and responsibilities related to intellectual property.

Such initiatives aim to demystify complex legal and technical IPR concepts by presenting them in a practical, user-friendly manner. Sessions can cover essential topics such as the patent filing process, copyright registration, infringement issues, commercialization opportunities, and the strategic importance of protecting innovations and creative works. Experts from legal fields, industry, patent offices, and academia are often invited to share real-world insights and case studies, which help participants, grasp the relevance of IPR in academic and research settings. Interactive activities such as IPR quizzes, contests, and innovation challenges further enhance engagement and retention of knowledge. Through these efforts, the IPR Cell not only fosters a culture of innovation and legal awareness but also empowers the university community to confidently navigate the evolving landscape of intellectual property. This foundational understanding is essential to prevent unintentional infringements, promote ethical research, and encourage the protection and commercialization of new ideas and inventions.

Introduction of IPR Cell at USLLS Orientation

- The dynamic members from the USLLS IPR Cell took center stage at the orientation event for the upcoming batch, passionately introducing the Intellectual Property Rights (IPR) Cell.
- They shared insights into how the IPR Cell empowers students with knowledge about intellectual property, fostering innovation and creativity within our community. Our team elaborated on the importance of IPR, the various initiatives the Cell has in store, and how the new students can get involved. The audience was enthusiastic in its response towards contributing to the cell's mission of fostering a deep understanding and appreciation of intellectual property rights among our peers.

IPR Cell Orientation 2024

The Intellectual Property Rights (IPR) Cell of the University School of Law and Legal Studies (USLLS) hosted an engaging and insightful orientation session on 24th September 2024, led by Vaishnavi Chauhan and Jehov Thomas, both 3rd-year BA-LLB (Hons.) students.

IPR Cell Orientation 2024

The session kicked off with an introduction to the dynamic field of Intellectual Property Law, focusing on its relevance for future legal professionals. Vaishnavi highlighted how IPR protects creative works, while Jehov explained the different categories of IP, including industrial property (patents, trademarks, industrial designs) and copyright (literary and artistic works). A presentation detailing the IPR Cell structure and activities was shared with the students. They also shared real-life examples like the Namaste London case, illustrating the importance of IPR in legal disputes.

IPR Cell Orientation 2024

- The orientation also featured interactive elements, including a quiz and a game called "Spot the Real Logo," where students identified authentic trademarks, fostering a practical understanding of how trademarks protect brands.

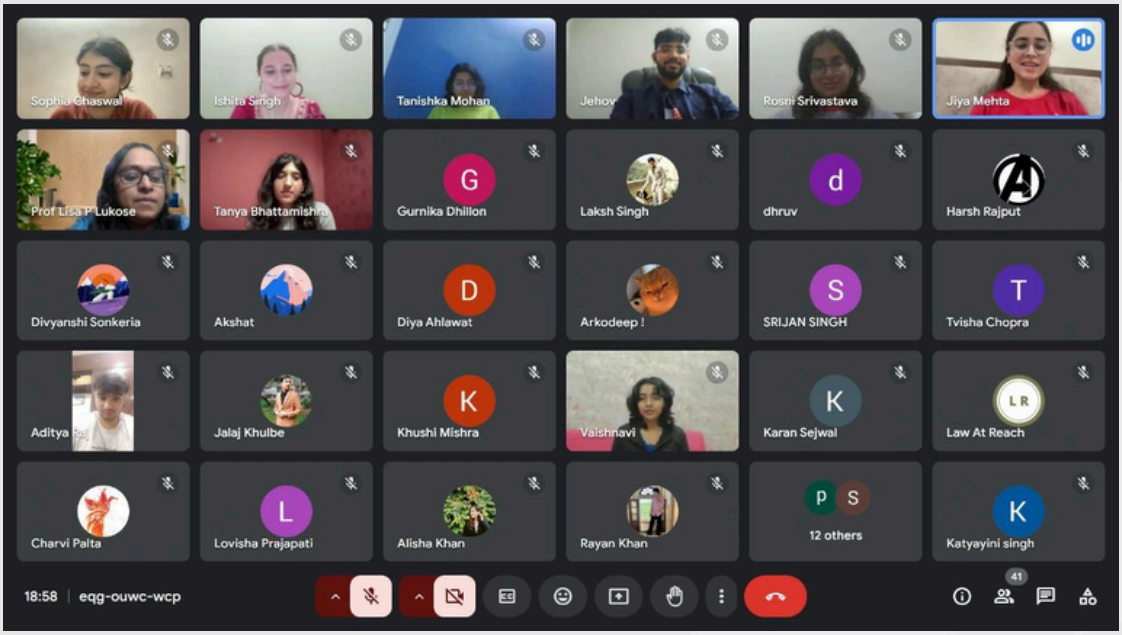

- Faculty Coordinator Prof. (Dr.) Lisa P. Lukose, addressed the audience, discussing the significance of IPR in various legal domains. The student team shared their experiences of working in the cell. They encouraged students to engage with the IPR Cell to explore research opportunities, skill-building workshops, and collaborative projects.

Student Team Orientation

- The IPR Cell hosted a successful orientation meeting, introducing new members to the team and discussing upcoming events and initiatives. The meeting was a great opportunity for everyone to get acquainted with each other and learn more about the cell's vision and objectives.

- Key highlights of the meeting included an introduction to the IPR Cell, a recap of recent events and workshops, and discussions about upcoming programs such as the Capacity Building Program. The team also introduced themselves and shared their expectations and responsibilities, setting the tone for a productive and collaborative academic year.

Extension Lecture on 'Balance Between User Rights and Copyright Protection in the Context of TPMs'

Extension Lecture on 'Balance Between User Rights and Copyright Protection in the Context of TPMs'

- The IPU-IPR Cell of the University School of Law and Legal Studies (USLLS), Guru Gobind Singh Indraprastha University (GGSIPU), held an Extension Lecture on October 23, 2024, for students at USLLS, GGSIPU, specifically for the seventh semester of BA LLB, LLM, and PhD scholars, virtually via Google Meet. Dr. Deepa Garg, associate professor from Faculty of law, Delhi University served as the Extension Lecture resource and discussed the subject of "Balance Between User Rights and Copyright Protection in the Context of TPMs."

- The event commenced with a warm welcome by Ph.D. Scholar Chhitiz Parashar, followed by a formal introduction of the guest speaker, Dr. Deepa Garg, by Miss Pragya Saraswat. She delivered a comprehensive and thought-provoking lecture, shedding light on the intricate relationship between user rights and copyright in emerging technologies. The discussion focused on Technical Protection Measures (TPMs), Digital Rights Management (DRM), exclusive rights, limitations, and fair use doctrine. She also explored the implications of AIgenerated works, deepfakes, and social media on copyright and authenticity. She highlighted the role of TPMs, a component of Digital Rights Management (DRM), in preventing unauthorized access or copying of digital content. Examples of TPMs include geo-blocking and pay-per-use models. The lecture emphasized the exclusive rights granted to creators for commercial exploitation, while acknowledging limitations that ensure fair use. Moreover, she distinguished between use and exploitation, underscoring the importance of fair use doctrine. She also addressed concerns surrounding geo-blocking, pay-per-use models, and circumvention of TPMs.

Extension Lecture on 'Balance Between User Rights and Copyright Protection in the Context of TPMs'

- Further, the lecture drew upon international frameworks, including the US Digital Millennium Copyright Act and WIPO Copyright Treaty's Article 11. She analysed the landmark case of Universal vs. Eric Corley (2000), highlighting the complexities of Digital Rights Management and Technical Protection Measures. She emphasized the need for striking a balance between user rights and copyright, advocating for ongoing research, legislation, and awareness education. The lecture effectively enhanced understanding of copyright law and technology, fostering critical thinking and interdisciplinary dialogue.

- The extension lecture concluded with recommendations for continued research on TPMs and emerging technologies, interdisciplinary dialogue and collaboration, and awareness education on user rights and copyright. The enlightening lecture ended with a lively Q&A session, where students posed thoughtprovoking questions and received eloquent responses from Dr. Deepa Garg. This interactive exchange fostered a deeper understanding of the subject matter. In appreciation of Dr. Deepa Garg's enlightening lecture, Shivani Sangwan extended a warm vote of thanks, acknowledging the significant impact of her expertise on the students' understanding.

Techno-IPR Law Conclave and Brainstorming Session on "Exploring Regulatory Challenges and Opportunities in AI, Blockchain and IPR"

Techno-IPR Law Conclave and Brainstorming Session on "Exploring Regulatory Challenges and Opportunities in AI, Blockchain and IPR"

Felicitation Ceremony at the Event

Techno-IPR Law Conclave and Brainstorming Session on "Exploring Regulatory Challenges and Opportunities in AI, Blockchain and IPR"

- On February 10, 2025, USLLS IPR Cell at Guru Gobind Singh Indraprastha University organized an insightful IPR Conclave titled "Exploring Regulatory Challenges and Opportunities in AI, Blockchain and IPR." The event, held at C-413 (Moot Court Hall) from 11:45 A.M. to 1 P.M., featured Mr. Mohit Tanwar, a PhD Scholar from USLLS, GGSIPU and author of "The Crypto Mines," who delivered a comprehensive analysis of blockchain technology and its legal implications and Ms. Maya Sherman, an Oxford University Alumni and Innovation Attaché who enlightened about the AI and its effects.

- Ms. Maya emphasized about the ripple effect of AI and the appropriate course of action that should be adopted while handling AI. She focused on democratisation of data and AI and the technological developments needed for an efficient and accessible utilization of AI. She presented case studies on the large influence of AI as compared to Human created images.

Techno-IPR Law Conclave and Brainstorming Session on "Exploring Regulatory Challenges and Opportunities in AI, Blockchain and IPR"

- Mr. Tanwar's presentation focused on the intersection of blockchain technology and legal frameworks, explaining how distributed ledger systems are revolutionizing various sectors. Drawing from his expertise as both a legal scholar and blockchain specialist, he elaborated on the concept of Web3 and its potential to transform digital ownership and transactions. His discussion particularly emphasized the regulatory challenges surrounding blockchain implementation, smart contracts, and their implications for intellectual property rights in the digital age.
- The guest speakers earnestly answered the Queries of the inquisitive students and the best question as a token of appreciation was bestowed with book, 'The Crypto Mines' by revered Mr. Mohit Tanwar. The event concluded with the vote of thanks by esteemed Dean, Prof. Queeny Pradhan.

The event was organized under the leadership of Prof. (Dr.) Queeny Pradhan, Dean of USLLS, and Prof. (Dr.) Lisa P. Lukose, with Prof. (Dr.) Mahesh Verma, the Hon'ble Vice Chancellor, serving as Patron-in-Chief. Ms. Maya Sherman, an Oxford University Alumni and Innovation Attaché, also contributed valuable insights. Faculty coordinators Prof. (Dr.) Gurujit Singh and Prof. (Dr.) Vandana Singh, along with student co-convenors Sophia Chaswal and Tanya Bhattamishra, ensured the smooth execution of this enlightening conclave that successfully bridged the gap between technological innovation and legal understanding.

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

SPECIAL EDITION

Intellectual Property Rights Cell

VOL. 1, NO. 1 | University School of Law and Legal Studies, Guru Gobind Singh Indraprastha University | 26 APRIL 2025

INTELLECTUAL PROPERTY RIGHTS DAY

Image Credits: World Intellectual Property Organization

DID YOU KNOW?

Every song has a story—and so does every sound behind it. This World Intellectual Property Day, we're turning up the volume on the creative force that drives the global music industry.

This year's World IP Day invites us to explore how IP rights and innovation policies empower creators, innovators, and entrepreneurs to bring fresh ideas to the music industry, safeguarding the work of songwriters, composers, performers, and all those who shape the music that moves us.

In today's interconnected music landscape, it is essential to recognize that sampling—using any part of another artist's work, including beats, melodies, or lyrics—requires explicit permission from the rightful copyright holders. This process ensures that all contributors receive due credit and fair compensation. It is also noteworthy that song titles are not protected by copyright law, which explains why different artists may release works under the same title without legal conflict—such as the numerous popular songs titled "Déjà Vu."

CELEBRATING THE BEAT OF IP MUSIC

From the rhythms that invite us to dance, to the lyrics that echo our emotions, music enriches every aspect of our lives. Even when it's not on our minds, the beat and rhythm of music and IP are always present in our lives. Let's celebrate the minds behind the magic—and the rights that help their ideas shine!

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

Poster of the Event

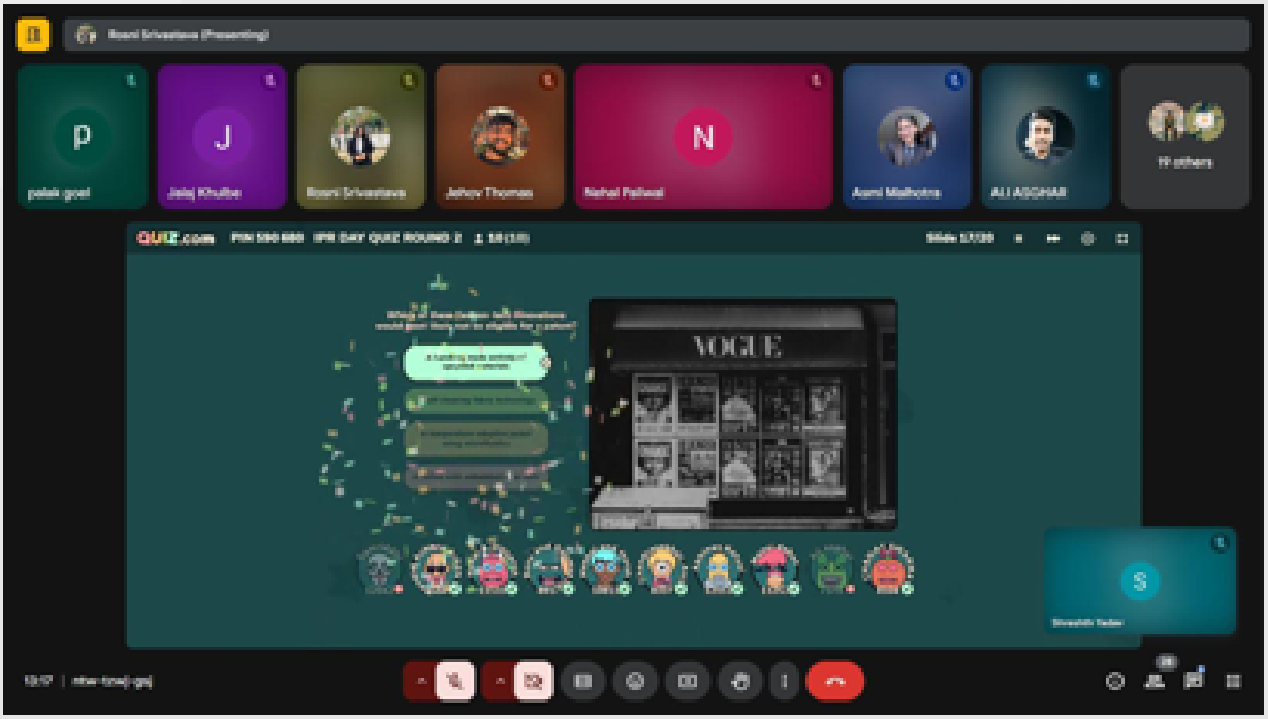

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

- On April 26, 2025, the USLLS IPR Cell at Guru Gobind Singh Indraprastha University organized a stimulating Intellectual Property Rights Quiz Competition in collaboration with the IPU-IPR Cell to commemorate World Intellectual Property Day. The event, held online via Google Meet from 12:00 PM onwards, brought together students from various departments to celebrate and promote awareness about intellectual property rights.

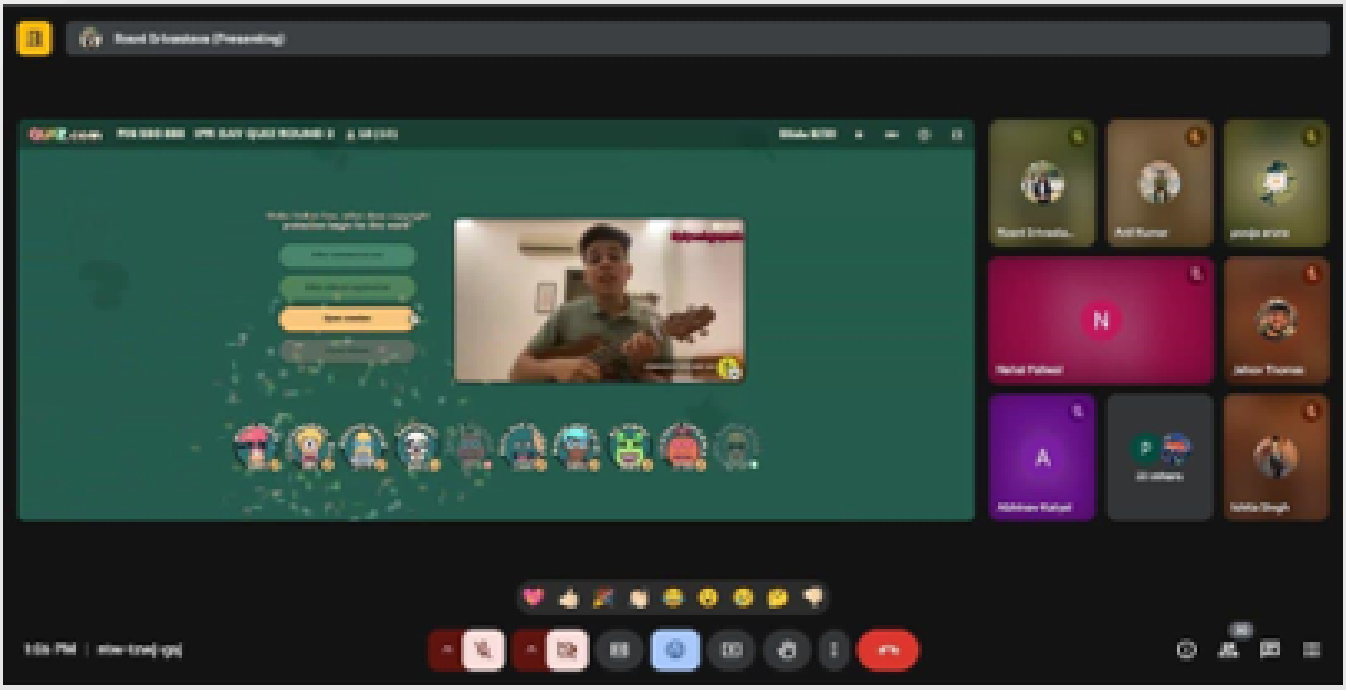

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

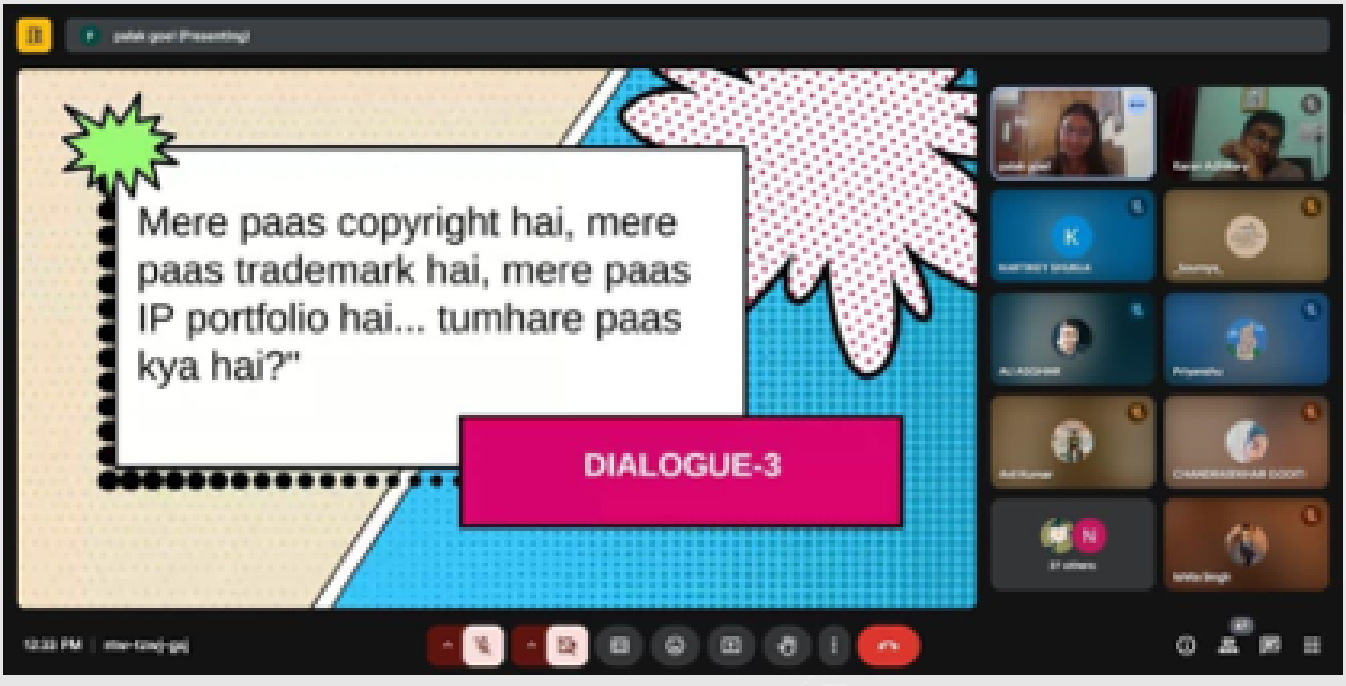

- The competition was structured in two comprehensive rounds. The first round featured an online quiz through Google Forms where all 46 teams answered 20 questions within a 10-minute timeframe. This elimination round selected the top 10 teams to proceed to the second round. The subsequent round consisted of a Live Q&A session where qualified teams answered questions within 45 seconds, with each correct answer earning 10 points without negative marking. Questions varied in format, including multiple choice, true/false, and image-based items, testing participants' knowledge across patents, trademarks, copyrights, and various IP legal frameworks.

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

Stills from the Dialogue Delivery Activity Held During the Session

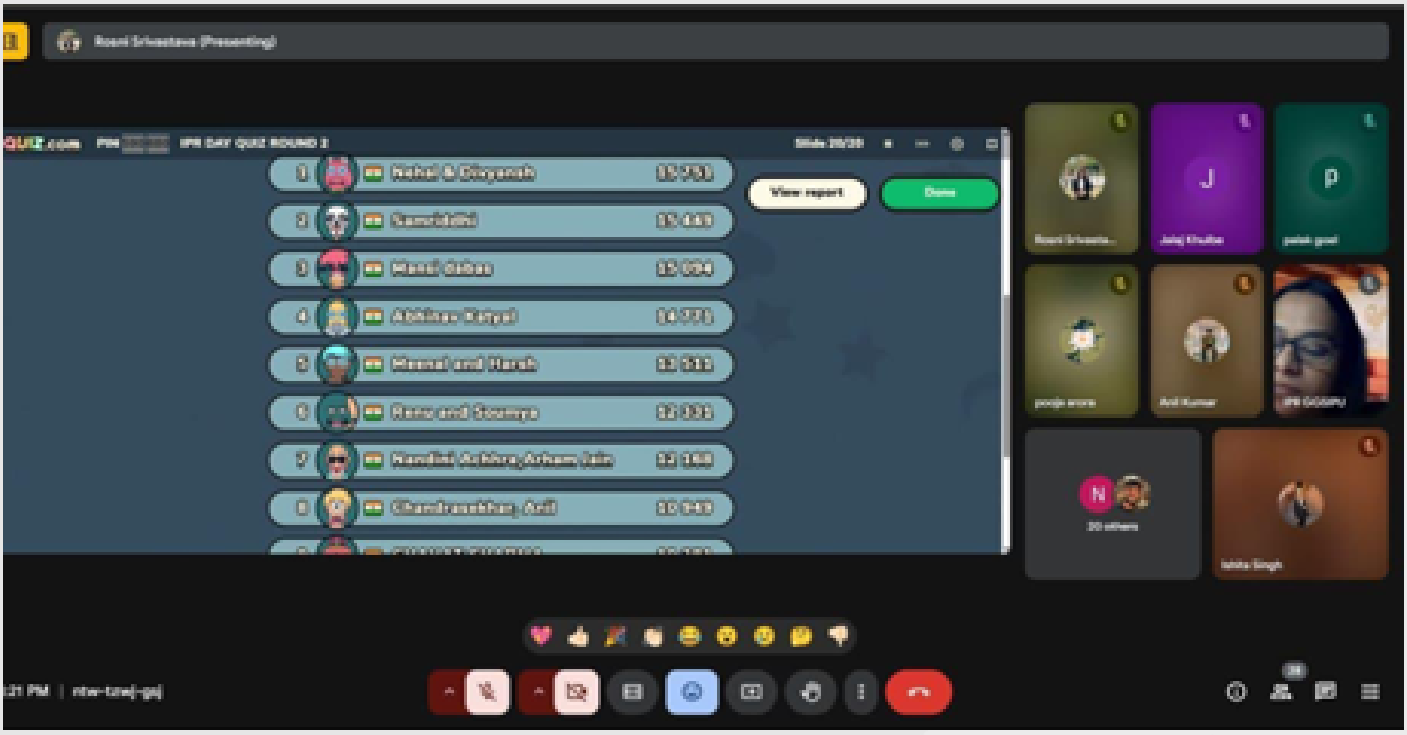

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

- Between the rounds, an engaging recreational segment was organized, featuring tongue twisters and improvised renditions of iconic Bollywood dialogues themed around Intellectual Property Rights (IPR). This segment was thoroughly enjoyed by the participants and helped maintain high levels of enthusiasm and engagement throughout the competition.

Result Declaration at the Event

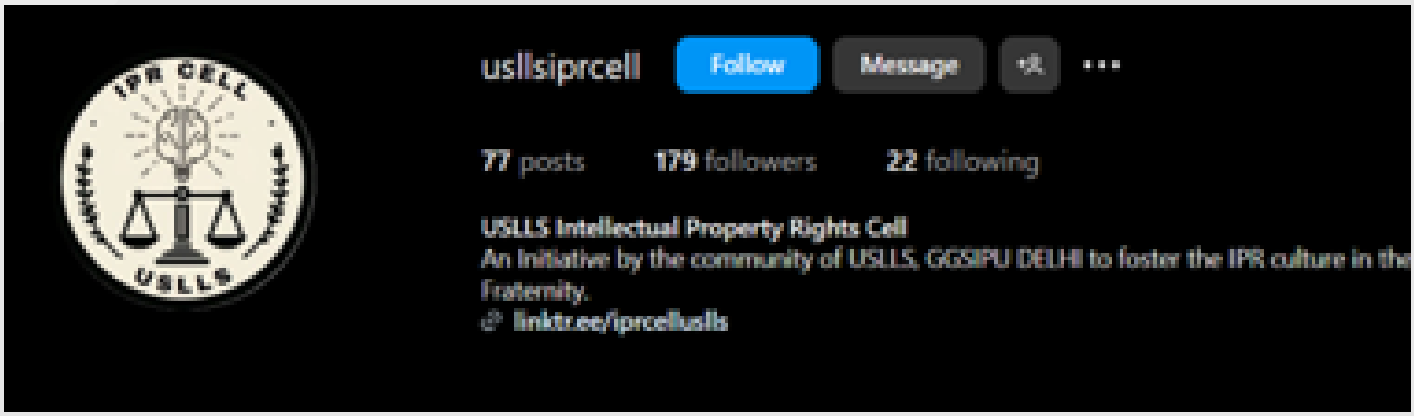

WORLD INTELLECTUAL PROPERTY RIGHTS DAY QUIZ COMPETITION

- The event successfully achieved its objective of advocating for the protection of intellectual property rights while fostering competitive spirit among participants. The competition concluded with the announcement of winners and recognition of all participants' enthusiasm and knowledge in the field of intellectual property rights. The smooth conduct of the event was made possible by the unwavering dedication and coordinated efforts of the USLLS IPR Cell's technical and logistics team, whose meticulous planning and real-time support ensured the seamless execution of each round.

- The event concluded with an insightful address by Prof. (Dr.) Lisa P. Lukose, who emphasized the importance of intellectual property awareness among students and congratulated both the winners and all participants for their enthusiastic engagement. Her closing remarks reinforced the role of such competitions in bridging theoretical knowledge with practical understanding of intellectual property concepts.

February 10, 2025- USLLS IPR Cell at GGSIPU organized an IPR Conclave on the theme "Exploring Regulatory Challenges and Opportunities in AI, Blockchain, and IPR", which was discussed by experts Ms. Maya Sherman and Mr. Mohit Tanwar. A huge thanks to all for the successful event!

3. X.COM

The X (formerly Twitter) profile of the Intellectual Property Rights (IPR) Cell at the University School of Law and Legal Studies (USLLS), Guru Gobind Singh Indraprastha University (GGSIPU), serves as a dynamic platform for disseminating information and updates related to intellectual property rights. Through this profile, the IPR Cell shares announcements about events, workshops, and competitions, fostering a culture of innovation and legal awareness among students and professionals. By leveraging the reach of social media, the IPR Cell aims to engage a broader audience, promote discussions on contemporary IPR issues, and provide resources for those interested in the field. This initiative reflects the Cell's commitment to enhancing the understanding and importance of intellectual property rights in today's knowledge-driven society.

THE WAY FORWARD

- The IPR Cell is all set to celebrate IPR Week 2025 in the upcoming session. The Intellectual Property Rights (IPR) Week, held by the University School of Law and Legal Studies, is an excellent opportunity to gain a deeper understanding of the intricate realm of the intellectual property law. In order to promote innovation, creativity, and economic growth in today's knowledge-based economy, this event aims to increase awareness and spark crucial discussions about the significance of intellectual property rights.
- Participants will engage in an interactive panel discussion with professionals from the legal, business, and academic sectors throughout the week. They will discuss new developments in intellectual properties including copyright, patent, and trademark law. A guest lecture by renowned academics and professionals will also be included in the event, providing attendees with insightful knowledge about particular facets of intellectual property law. A case study analysis, a patent drafting competition, a paper presentation, and a movie screening are the primary activities during IPR Week. These are all intended to improve people's comprehension and critical thinking of intellectual property issues. Students will have the opportunity to network with attorneys, business leaders, and former students, which will facilitate their access to career guidance and mentorship in the field. Giving people the resources they need to honestly and confidently traverse the complex realm of intellectual property law is the aim of IPR Week. This will foster the growth of creativity and innovation both within and outside of the academic community.

THE WAY FORWARD

- The Cell has facilitated the filing of five more patent applications, marking a significant step in the institution's innovation and intellectual property initiatives. These applications include a range of technologies primarily focused on advanced material detection and energy storage systems.

ACTIVITIES IN THE PIPELINE

To further its mission of fostering awareness, academic engagement, and creative exploration in the field of Intellectual Property Rights (IPR), the USLLS IPR Cell, in collaboration with IPU IPR Cell, is organizing IPR Week 2.0 in September 2025. This second edition will feature a series of dynamic and interdisciplinary activities designed to engage students, faculty, and researchers across disciplines in meaningful conversations around intellectual property. The week will commence with a Panel Discussion, bringing together experts from academia, law, and industry to deliberate on current challenges and recent developments in the IPR landscape. This session will also provide participants the opportunity to present their own research, facilitating intellectual exchange and peer learning.

As part of IPR Week 2.0, the Cell will host a series of engaging academic and creative activities to deepen awareness and foster dialogue around intellectual property rights. Highlights include a seminar on evolving trends and critical issues in IPR, a trivia session designed to test participants' knowledge in an interactive format, and a declamation competition to encourage critical thinking and public speaking on contemporary IPR themes. To promote legal writing, a blog competition will invite analytical pieces on emerging topics, while a movie screening will creatively explore the real-world impact of IPR through film and discussion. An exhibition showcasing real-life IPR disputes, complete with case summaries and outcomes, will help attendees understand the complexities of IP protection. Collectively, these events aim to build a vibrant culture of innovation, reflection, and respect for intellectual creativity within the university.

CONCLUSION

- The IPU IPR Cell plays a crucial role in promoting innovation-driven environments in the university especially in academics and research. Collaborating with USLLS IPR Cell in its all academic and seminar activities it educates and engages with stakeholders on various aspects of intellectual property law, including patents, trademarks, copyrights, and trade secrets. The cell's primary objectives include nurturing a comprehensive understanding of IP laws, facilitating research and scholarship, and providing consultancy services. The interdisciplinary approach of the cell draws expertise from law, technology, business, and other relevant domains to offer holistic solutions to contemporary IP challenges. The cell fosters a dynamic environment for discourse, innovation, and practical application of IP principles through seminars, workshops, research publications, and collaborative initiatives.
- It has successfully filed and published several patent applications in various fields. The Cell aims to simplify the patent process for university employees and scholars, encouraging innovation and technological developments. The IPR Cell also organizes informative and interactive events on intellectual property, including patent filing, copyright registration, infringement issues, commercialization opportunities, and the strategic importance of protecting innovations and creative works. The Cell fosters a culture of innovation and legal awareness, empowering the university community to navigate the evolving landscape of intellectual property.

CONCLUSION

- The USLLS IPR Cell's Instagram, LinkedIn, and X.COM profiles serve as dynamic platforms for disseminating information and updates related to intellectual property rights. The IPR Cell is set to celebrate IPR Week 2025, aiming to increase awareness and spark crucial discussions about the significance of intellectual property rights. The event includes interactive panel discussions, guest lectures, case studies, patent drafting competitions, paper presentations, and movie screenings. The Cell has also facilitated the filing of five more patent applications, focusing on advanced material detection and energy storage systems.

- As the IPU-IPR Cell and the USLLS IPR Cell continuously strive to fulfill the objectives of - promoting awareness, protection, and management of intellectual property;encouraging innovation, assisting and facilitating filing of various IPRs particularly patents, Designs, etc; and formulating and updating institutional IP policies s to build a strong culture of research and innovation - with utmost sincerity and commitment. The Cell aims to focus more on management of IPR and Collaboration with industries in the coming years. look forward to many more academic activities in the coming years; encourage our faculty and scholars to keep advancing innovation and creativity to strengthen our overall innovation performance and to elevate our institutional innovation index and thereby contributing to the nation's innovation ecosystem.
