Elysian 2025

Venue: University School of Automation & Robotics, East Delhi Campus | Date: 15–17 October 2025

Guests and university representatives during Elysian 2025.

Introduction

The University School of Automation & Robotics (USAR), Guru Gobind Singh Indraprastha University, successfully organised Elysian 2025, the Annual Cultural and Technical Fest of the East Delhi Campus, from 15th to 17th October 2025. The three-day celebration brought together students for a series of technical, cultural and creative activities.

Event Description

Celebrated under the theme “Technology & Robotics in Indian Culture and Festivals”, Elysian 2025 featured a diverse programme designed to encourage innovation, creativity, collaboration and student participation. The fest witnessed participation from thousands of students representing universities and institutions.

The event included technical competitions, cultural performances, hackathons, gaming events, robotics showcases and artistic activities. These engagements provided students with opportunities to demonstrate their skills, exchange ideas and participate in a vibrant campus-wide celebration.

Significance of the Event

Elysian 2025 created a platform for students to bring together technology, culture and creativity. By combining technical challenges with cultural and artistic activities, the fest encouraged teamwork, practical learning, innovation and interaction among students from different institutions.

Conclusion

Elysian 2025 was a lively celebration of talent, technology and student community at the East Delhi Campus. The successful three-day fest offered participants a valuable opportunity to learn, compete, collaborate and showcase their abilities, making it a memorable part of the university's campus activities.
