Organised By: A National Road Safety NGO, in association with the CSR programme of JSW MG Motor India and supported by District Magistrate, East Delhi.
Resource Person/Chief Guest: District Magistrate, East District

4. Introduction

The event titled "Project RoadSakhi" was organised by "A National Road Safety NGO", in association with the CSR programme of JSW MG Motor India and supported by District Magistrate, East Delhi on 13 Oct. 2026 at Conference Hall, O/o District Magistrate, L.M. Bundh, Shastri Nagar, Geeta Colony, Delhi-110031. The event aimed to provide participants with knowledge and practical insights into a women-centric road safety awareness. We attended the event as an assistant professor of USAR, GGSIPU to enhance my knowledge and gain exposure to the subject road safety.

5. Objectives of the Event

Create road safety awareness: Educate participants about traffic rules, road signs, safe driving practices, and responsible road behaviour.

Develop bystander response skills: Train participants to respond appropriately when they witness a road accident and assist injured persons safely. To interact with experts, faculty members, and other participants.

Promote responsible road behaviour: Encourage the use of helmets and seat belts, avoidance of speeding and distracted driving, and adherence to traffic regulations.

Empower women through Project RoadSakhi: Promote women's road safety awareness, confidence, and capacity to contribute to safer roads and communities.

Strengthen emergency preparedness: Help participants understand how to take appropriate action during road accidents and seek professional emergency assistance.

Promote symbols recognition: Encourage students to understand and recognize road safety symbols to promote safe and responsible road behaviour.

6. Description of the Event

The Road Safety Training Programme under Project RoadSakhi was organized to create awareness about traffic rules, safe road practices, bystander assistance, and basic CPR. The programme aimed to equip professors, staff and final-year students with essential knowledge and practical skills to promote road safety, respond effectively to road emergencies, and spread awareness within the university and community.

7. Key Learnings and Outcomes

Participants gained awareness of traffic rules, safe road practices, accident prevention, bystander assistance, and basic CPR. The programme emphasized responsible road behaviour, timely emergency response, and the importance of helping accident victims safely. It also encouraged professors

and students to become road safety ambassadors and spread awareness within the university and community. learning skills.

8. Conclusion

Overall, The Road Safety Training Programme successfully highlighted the importance of responsible road behaviour, accident prevention, and emergency response. It encouraged participants to promote road safety awareness and assist others during emergencies. The initiative aims to develop responsible citizens, empower students as road safety ambassadors, and contribute towards safer roads and communities.
