EDITION 001 | MARCH 2023

GOOD READS

Prof. Arvinder Kaur

— DEAN

From the Desk of the Dean.

It gives me immense joy and pleasure to present the first edition of our newsletter highlighting the achievements of teachers and students of Guru Gobind Singh Indraprastha University, East Delhi Campus.

I look forward to many more editions. My best wishes to the faculty members and students in bringing up the newsletter.

Prof. P.C Sharma

— DIRECTOR INCHARGE

From the Desk of the Director In Charge.
I feel happy in presenting the inaugural issue of the newsletter, the EDC Newsletter, of the East Campus of Guru Gobind Singh Indraprastha University. The newsletter has been conceptualized to highlight the various academic and co-curricular events being organized in the East Campus. I congratulate all the faculty and students who have contributed in the preparation of this newsletter.

TECHNICAL CLUBS

Software Development Cell (SDC)

Software Development Cell is a club of USAR, where students with a spark to learn and grow as developers can join and acquire knowledge on different technologies by working on real-life projects run in the university.
This Club is under the mentorship of Dr. Rahul Johari.

The members of the club wish to learn the different technologies that are being used in the tech industry and share the knowledge with fellow developers in the university.

MISSION: The members of the club wish to learn the different technologies that are being used in the tech industry and share the knowledge with fellow developers in the university.

Office Bearers :

Chair- Ayush Baliyan
Vice Chair- Ayush Goyal
Treasurer CHAIR- Ansh Goyal
Developer Relations- Suraj Mishra
Public Relations- Shubh Sardana
Database Administrator- Sarthak Agarwal

Institution's Innovation Council (IIC)

IIC encourages, inspires, and nurtures young students by supporting them to work with new ideas and transform them into prototypes while they are informative years.
This Club is under the mentorship of Ms. Kriti Batra.

Functions of IIC:

To conduct various innovation and entrepreneurship-related activities prescribed by Central in time bound fashion.
Identify and reward innovations and share success stories.
Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, and professionals and create a mentor pool for student innovators.
Network with peers and national entrepreneurship development organizations.
Create an Institution's Innovation portal to highlight innovative projects by the institution's faculty and students.
Organize Hackathons, idea competitions, mini-challenges, etc. with the involvement of industries.
This Club is under the mentorship of Dr. Kriti Batra.

USS ACM Student Chapter

ACM stands for Association for Computer Machinery. USS ACM Student Chapter was launched in 2019 to promote the Computer Science culture at our university. At USS ACM Student Chapter, we see a world where computing helps solve tomorrow's problems, where we use our knowledge and skills to advance the profession and make a positive impact.
This Club is under the mentorship of *Dr. Rahul Johari.*

Office Bearers :

Chair- Anurag Parashar
Vice Chair- Rajnikant Roy
Secratary- Nidhi Rathore
Web Chair- Apoorv Aron
Treasurer- Akash Mohan
Membership Chair- Aryan Garg

Karuyantra Robotics Club (KRC)

The Karuyantra Robotics Club seeks to cultivate in young minds the ability of technologically vibrant and innovative thinking.
We aim to make students aware of Robot Technology and use their programming skills to program robots and build new robots that aid various attention-needed issues.
The club aims to support and foster the interest in various aspects related to robotics through
1. Provide interested students with opportunities to express their skills, knowledge, and creativity through conceptualizing, designing, and programming robots via workshops and projects.
2. Short-term training programs to bring in the latest technologies in automation and manufacturing sectors

OFFICE BEARERS:
President- Vishwajeet Singh
Vice President- Gauraansh
Secretary- Manan Singhal
Joint Secretary- Saksham Jha
Treasurer- Rashi Garg

FINOPS

Why do Cloud users need to start thinking FinOps?

By Jatin Ray (IIOT 2nd year)
Edited by: Chirag (AR 2nd year)

Cloud brings enormous benefits. But ask any cloud user and they will also tell you that cloud costs can go completely out of control if you are not very careful. And so, a term that is trending now is FinOps, short for financial operations.

It is the practice of tracking the financial aspects of cloud transformation, ensuring that you are not using servers, storage, networks, and cloud solutions more than necessary. Cloud computing is the cornerstone of innovation for many organizations.

It involves the product owner and finance and engineering departments analyzing data and then using that to negotiate rates and infrastructural changes with cloud providers. FinOps is also about creating a community-not just one set of professionals- working on optimizing cloud costs. 'If DevOps is a development culture, FinOps is a personal finance culture. It creates a community of people who can keep an eye on the money being spent'.

Yet many enterprises struggle to properly manage cloud costs. FinOps can serve as a powerful framework for controlling unwieldy cloud costs while driving cultural change and financial accountability across the organization.

FinOps will give you visibility into your cloud spending and where you are getting the most value from your cloud investments. As cloud computing has become mainstream, gaining visibility into cloud costs and controlling them has become a perennial issue for enterprises.

And the cost management tools offered by the cloud providers do not get the job done. Cloud costs continue to grow, and the amount of wasteful spending remains high, according to the Flexera 2022 State of the Cloud Report survey released in March. Optimizing their existing cloud use for the sixth straight year to realize cost savings — sometimes known as FinOps — was the No. 1 cloud priority for enterprise technical technology professionals this year. Better financial reporting on cloud costs also was a top initiative. Subramanian Ananth Padmanabhan, VP and head of mid-markets at SAP India, says FinOps is cloud economics, where the consumption architect will tell companies how to bring down the bill by making changes to the architecture.

Directorate of Students' Welfare (DSW)

Shalender Bhandari (AI & DS 2nd yr)
Vishal Mittal (IIOT 2nd yr)

Some of the important activities carried out by DSW that the students must be aware about are:
1) Provides financial assistance through various financial schemes and scholarships to the students belonging to Economically weaker sections of the society (EWS) and meritorious students.
2) Provides Financial Assistance for conducting Fresher's / Farewell to the students of University Schools.
3) Organises Specialised Coaching such as provides Training facilities under the guidance of experienced coaches for major sports events like Football, Volleyball, Badminton, Kabaddi, Tug-of War, Cricket, Track and Field, Yoga, Music and Dance etc.
4) Responsible for organising the Annual Cultural Fest Anugoonj and Annual Inter Collegiate Sports Meet every year.
5) The Srijan- Indraprastha society for creative expressions, runs under the aegis of the DSW. There are 12 clubs under the banner of Srijan covering almost every area of human endeavour like Dance, Drama, Music, Photography, Literature etc .
These Srijan Clubs, provides a platform to students to explore, and showcase their skills through various events, activities, and webinars.
Students can enroll themselves as per their area of interest and should actively participate in the events organised by various clubs.

EVENTS (APRIL'22-MAR'23)

Technology Day'22

National Tech Day: 11th May 2022

The day, which was first observed on 11th May 1999, aims to commemorate the scientific and technological achievements of Indian scientists, and engineers. The day was named by former Prime Minister, Atal Bihari Vajpayee. A Special Day for all the students of GGSIPU, EDC. National Tech Day on the EDC campus was celebrated with handsome vibes. After a semester-long offline session and activities. The Day being the first offline Event holds a place in our minds. The Day was started with University's kulgeet and the professor's addresses. Later, the eventful day ran on the track with club activities and performances. Each club/society arranged some activity based on the theme of science and research and witnessed active participation with some graceful performances and a peak crowd.

IIT Kanpur E- Summit

It was the Entrepreneurship Summit'23 on 13-15 January 2023 at IIT Kanpur, that proved to be a wonderful college trip for so many of us. Abhishek Garg, USAR had the info about this offline event at IIT Kanpur campus and shared the opportunity with everyone. A team from IITK came to our campus, had a session about the event and cleared any doubt that rose with the participants. More than 100 students from the campus registered and almost 2 train coaches full of USAR students went on to a journey to Kanpur together. Staying in IITK Hostels, it was big fun and learning new. The 3-days were full of sessions and competitions in various fields of business, sustainability, finance, legal services, metaverse, women entrepreneurs, and innovation. Engaging with famous personalities, BVR Mohan Reddy did inaugrate the summit, followed by experienced businessmen and a final blow at the third day with Ashneer Grover. Many students of USAR participated in the sessions, asked questions, won competitions and had a joyous learning experience altogether.

SDC Speaker Session

We organized a speaker session by Mohammad Fraz on 3rd Dec 2022. He brings students splendid guidance and walks through all things about MAANG and how to crack it.
He talked about his attempts to get into these very competitive firms and how he finally landed his dream job at Google.

He highlighted the need of having a solid foundation in data structures and algorithms as well as the necessity of perseverance and practice even in the face of difficulty.

Students eagerly engaged with him and asked questions during the class, which made for a terrific engagement. Students were able to benefit from Fraz's experiences and obtain insightfully
knowledge during the workshop, which was truly participatory.

India CSR Summit

Students of GGSIPU EDC were given an amazing opportunity by IBM Skills Build in collaboration with CSRBOX to help them organise India's largest CSR SUMMIT, this opportunity gave our students a room to enhance and sharpen their leadership, teamwork and communication skills.
The Team Leads were Akshat Jagya, Avaneesh Pandey, Aryan Kumar

MULAQAAT 2022

By Aryan Singh

The gathering is anonymous until it becomes a festival. 9th December 2022, the day when the campus came together to celebrate this prestigious event. It is the day we welcomed our freshers' batch of 2022 and named it MULAQAAT. The event had club members informing juniors regarding the various creative corners around their societies and had seniors interacting with them. Each club came

with some activities to garnish the day with creativity and fun. With the club addresses, the office bearers of their respective club were awarded a certificate for the completion of their wonderful one-year tenure. As orientation and club engagement were completed the day continued with its party mode. We witnessed some great music, dance and mic drop performances followed by a laughter dose of a standup comedy by Harjot Singh and Rowdies Skit by the Dramatics club. "Enjoyment Peaked when everyone decided to make it a count". We will meet again in Mulaqaat'23, till then enjoy the year ahead of you and prepare for exam peers.

Independence Day' 2022 Celebration | Republic Day' 2023 Celebration

India is the largest democracy of the world, and the rightful balance of freedom and justifiable restrictions, we Indians enjoy is the solemn fruitful outcome of our Indian Constitution. The family of GGSIPU EDC is also grateful to the Indian Constitution and its creators, hence, EDC expressed this feeling by celebrating 74th Republic Day, in our Campus.

The celebration of the Republic Day, was blessed by the presence of, Prof. P.C. Sharma (Director-in-charge EDC), Prof. Arvinder Kaur (Dean EDC) and, other esteemed and admired faculties of the campus.

Well dressed and martially disciplined NCC Cadets of EDC, presented the occasion a patriotic aura. Gracious hoisting of Indian tricoloured flag was also evident. And, the celebration was gratified by the words of wisdom by some of the dignitaries present.

Startup India Innovation Week

The Start-up India Innovation week was celebrated from January 10th -16th, 2023 and coordinated by IPU Innovation & Incubation Foundation and Institution's Innovation Council at GGS Indraprastha University.

Hon'ble Prime Minister Sh. Narendra Modi ji announced 16th January, the founding day of Start-up India, as the National Start-up Day. To celebrate the spirit of the Indian start-up ecosystem and mark this momentous day GGSIPU EDC organized expert lectures from 10th-16th January 2023. To begin the start-up week Prof. Amit Prakash Singh Prakash, Director of IPU-IIF, delivered the orientation program of IPU Innovation Foundation on 10th January 2023 and discussed all the preincubation and incubation facilities at IP University and also briefed about different start-ups functional at the University. He also welcomed the students to join the Incubation center and begin their startups.

University School of Design and Innovation conducted expert lectures by Sh. Aditya Prasad, Head Business Design IIM Lucknow Enterprise Incubation Center, and Ms. Archana Thakran, Founder and CEO, Skills Mitra Academy on 13th January 2023. The interaction with Sh. Aditya Prasad was indeed insightful. Sh. Prasad discussed about Entrepreneurship development program, Angel Investor training program, Startup training program, Venture Capital Training program and also about the successful startups at IIM Lucknow. He also motivated students and faculty to collaborate with IIM Lucknow and embark on their journey to begin their own start-ups. Ms. Archana Thakran, an entrepreneur working in the domain of Open Educational Resources (OER) emphasized the need of bringing dreams into reality through positive thinking and also emphasized the importance of networking and business strategies.

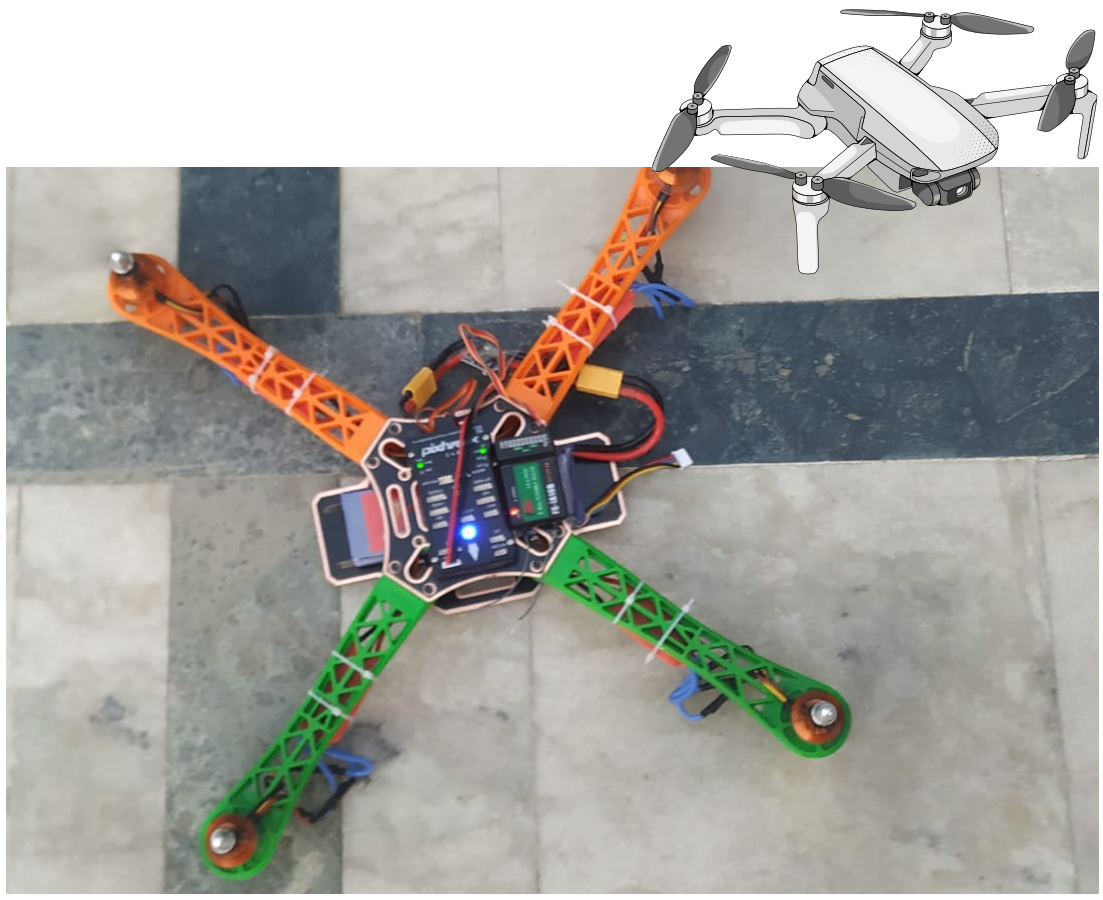

CDAC Course

Cdac course - Dr. Kriti Batra
IIT & IIIT Delhi - Dr. Khyati Chopra

C-DAC & MeitY conducted a Bootcamp Training Program on 'Drone Applications and UAS'. Our faculty member, Dr. Kriti Batra & the University School of Automation and Robotics students participated in the Bootcamp.

The five-day Bootcamp comprised daily sessions on theory and practical assembly, focussing on Drone Technologies, Flight Control Systems, Flight Dynamics, and DGCA Regulations for flying Drones, Drone Sensors, Aerial Photography and Unmanned Aerial Systems.

Skill workshop on "Wire-Laser Metal 3D Printing"

The University has established a new Center for De-Novo Technologies and Ergonomics in the East Campus, with academic support from USAR and USDI and the initial financial support from the Delhi Knowledge Development Foundation (DKDF), Govt. of NCT of Delhi.
Recently, a new "Wire-Laser Metal 3D Printer" has been procured from the US based manufacturer MELTIO with the DED (Direct Energy Deposition) technology implementation. This technology is very new in India and we, at GGSIPU, are the early adopters of this technology and this kind of digital manufacturing system.

The objective of the Skill workshop was to apprise faculty members, researchers, engineers and research students about the current opportunities present in the industry 4:O with regards to Wire Laser Metal 3D Printing; the workshop also encouraged all attendees to make use of these techniques to come up with new ideas, create prototypes and incubate their enterprise at the facility provided by Center for DE Novo Technologies & Ergonomics in Industry 4:O.

Campus Fest Des-Tech : Elysian'23

EDC believes technology and design goes hand in hand, and their amalgamation is the need of the hour. This Des-Tech Event is planned and executed by the two school of the campus - USAR and USDI. This year theme of Des-Tech is Elysian. In our fest Elysian, more than 120 colleges affiliated with GGSIP University, are invited.

EDC plans to make and project ELYSIAN as a through and through, holistically heterogeneous event and therefore, many diversified events are programmed throughout the two-day event. It includes events such as HackEDCode and Design-a-thon which is created with an aim to exhaustively evaluate the specific skills and attitude of participating teams, while events like Squid Game and Treasure hunt are especially created and included in order to test qualities like physical fitness, a player's presence of mind and the team work of participants.

These partially luck-based games along with DJ night are specifically planned to cheer up the audience. Value addition sessions like AR/VR workshop and speaker's session will also prove to be extremely beneficial for the aspiring professionals.

Places you must visit near GGSIPU EDC

By Kunal Rawat (2nd year IIOT B1)
Edited By Tushar Gupta (2nd year AIML B1)

If you are looking for a place to hang around with mates, there are numerous locations close to the GGSIPU campus in east Delhi that you can visit. For example, there is The Maharaja Surajmal Samadhi Park, which is right next to the college. It is also home to a lot of shops, including Garden Hut and nearby Keventers market with a variety of food at reasonable cost. If you want to go little more upscale, there are plenty of malls close to campus. A few of them are Cross River Mall and Unity Mall. If you are willing to travel a little further, we also have V3S and East Delhi Mall, which we will refer to visit if you have an evening to enjoy. The list would be incomplete without places to eat. You can eat at any number of fast-food joints with your friends, but if you want to somewhere exquisite a name of few Bakebook Bakery, The Sweet jar and other fast food restaurants like burger king, KFC, Mc D and Domino's.

Commencement Of Second Semester

The date of commencement of second semester of USDI is from 20th March'23 and USAR is from 27th March' 23.

IKIGAI

The Japanese Secret to a Long and Happy Life Authors

By Lavanya Sharma
A&R (1st year 2022-26)

Authors- Hector Garcia Puigcerver and Francesc Miralles
RATING- 4.6/5
GENRE- Self help book

Ikigai is a Japanese concept that basically means 'the happiness of always being busy'. Ikigai is written by combining the symbols 'iki' which means 'life' and 'gai' which means 'be worthwhile'. We all have passion in us - which is our ikigai. It gives meaning to our life and helps us share the best of us until the very end. If one does not know what his or her ikigai is, your mission is to discover it. This ikigai is hidden deep inside each of us, and is unique for each one of us. According to those born on Okinawa, our ikigai is 'the reason we get up in the morning'. Once we discover our ikigai, pursuing and nurturing it every day brings the happiness and meaning to our life which we long await. People with a clearly defined ikigai pursue their passion no matter what. It takes into regard the island of Okinawa, where lies its origin. It states that our state of mind governs our body also that ikigai is the major reason behind the longevity, active and happy lifestyle especially on the island of Okinawa.

Anti Ragging Committee

~ be a BRO not a BULLY !!!

By Shalender Bhandari (AI & DS 2nd yr)
Vishal Mittal (IIOT 2nd yr)

As we all know, ragging is a phenomenon thriving since aeons which has devastated the mental health of thousands of innocents. Also, it is a menace to humanity. As this topic is relevant to our college and we as students have to take a stand against it.

Myths about Ragging: There are some common myths about ragging among students. It helps in breaking the ice between freshers and seniors as students believe. It helps in developing friendship between them, even some people assume that ragging makes freshers strong.

Whom to approach in case of Ragging: One can directly approach the SRs of their respected USs and report them about the incident. Also they can report to their respective teacher. Even though Indian Government has banned ragging still we hear many incidents year after year. Let us all come together and put an end to this evil.
Anti-Ragging Committee: In every campus of GGSIPU, Anti Ragging Committee is formed. You can directly report in the committee.

Members (East Campus):
Prof. P. C. Sharma (Chairman of the Committee)
Prof. Arvinder Kaur (Member)
Prof. Ajay Singh Singholi (Proctor, EDC)
Dr. Rahul Johari (Member)
Ms. Sanya Singh (SR, USDI) - 99062 92094
Sh. Abhishek Garg (SR, USAR) - 96253 31522

The Power of your Subconscious mind

By Shivangi Vashistha
AR (2nd Year)

AUTHOR - Joseph Murphy
GENRE - Self - help

This book is all about self belief and how we can use our imagination to change the way we think. It's a very beautiful book. It can actually tell us about the unknown powers of our own subconscious mind. It's all about faith. Our mind basically replays what is in our imagination and how we perceive things. Author uses real life examples and evidences to convey the idea. Our life revolves around just a single belief and the way we think things to be. Whatever we want in life , we just had to imagine it, feel it and live it to the fullest and after that the wonder happens unexpectedly. This is all because of the supreme powers of our subconscious mind. By understanding, how our mind works we can actually turns our dreams into reality. It is applicable in every aspect of life. This book also helps us to overcome our fears in life. This book actually have helped me to overcoming many of my fears. Now I'm confident enough to face my fears. It is one of the best self- help book. No one can ever regret buying this book.
Happy Reading !!!!

Whispers among freshers

By Shalender Bhandari (AI & DS 2nd yr)
Vishal Mittal (IIOT 2nd yr)

A couple of days back, our team went to hang on what is in our freshie's mind about our college. We accumulated their opinion of our college management, staff and faculties. In general, students have a positive impression about the college.

According to them faculty is nice, overall teachers are accommodating and make students understand concepts in a lucid fashion.
