Subject: Report on MasterClass: "Structure & Skeleton [Applications of Information Design Paradigms on Interaction Design Practice" at Dept. of Design, NSUT, Dwarka

Name of the Event/Activity:	**MasterClass: "Structure & Skeleton [Applications of Information Design Paradigms on Interaction Design Practice" at Dept. of Design, NSUT, Dwarka**		
Dates	**15.09.2026**	**No. of Participations**	**26 B.Design (Interaction & Product Design)**
Faculty Coordinators	**Dr. Nanki Nath**		
Brief Description of the Activity:	Activity-based Masterclass Session: Our world is seamlessly connecting Information, Interactivity and Experience through meaningful User Engagements. 'Information' goes beyond being just Data points. This 'Information' [the Skeleton] feeds as well as revisits 'Interactivity' [the Structure] from users' perspectives - reflected in the design outcomes as part of digital products/ artifacts, systems and services. In this journey, there are effective core paradigms and approaches in Information Design that impact Interaction Design (IxD) practice at the cusp of Tech transformations and AI evolutions.
